Who We Are

African Canadian Continuing Education Society Foundation (1997)

The ACCES Foundation was established in 1997 for donors to plan their legacy using strategic options to fund the ACCES Society (established 1993) so that it may continue to alleviate poverty through education by providing post secondary scholarships to needy and bright students in the western region of Kenya..

Legacy giving has a long term impact ensuring that future generations will have the opportunity to realize their dreams of a post secondary education and break out of the cycle of generational poverty.
